
Blue Illuminated Push Button

Features

- Panel mounting
- Illuminated ring
- Push to make
- Separate LED terminals (outer terminals '+' and '-')

Dimensions

- Diameter: 22mm (19mm panel cut out)

Specifications

- Switch rating (Max): 50mA @ 24Vdc
- LED rating (Max): 20mA @ 3.6V

WARNING! This switch cannot be used to switch mains voltages. Only for use with voltages below 24Vdc and currents not exceeding 50mA. Always use a resistor in series with the LED (for example: 1kOhm for 12V or 2.2kOhm for 24V). This series resistor is already implemented in the Soft Start module.
