iKlip Grip Pro

Thank you for purchasing iKlip Grip Pro.

Your package contains:

- iKlip Grip Pro
- Wrist hand strap
- Device holder
- *Bluetooth shutter
- Double thread adapter
- Quick Start Guide
- Registration Card

iKlip Grip Pro is the next generation of IK's well known iKlip Grip. It provides a handheld grip, mini-tripod, monopad, tripod adapter and bluetooth shutter for any smartphone or phablet, in a conveniently portable package.

iKlip Grip Pro features a smartphone holder with brackets that expand to securely hold devices with or without a case with screen sizes ranging from 3.5" to 6".

Designed for effortless stable video recording, iKlip Grip Pro's holder is supported by a handle with three folding legs that can be used as either a tabletop tripod or handheld grip. There is also custom designed removable bluetooth shutter button conveniently integrated on the handle, to easily take pictures and start/stop video.

With iKlip Grip Pro, videographers will always get a great angle thanks to its ball mount, which can be adjusted up to 90°, and its detachable anodized aluminum telescoping pole, which can be locked into place to give up to 60cm of additional height.

iKlip Grip Pro's handle can also be used as a camera tripod or as a tabletop microphone stand or handheld mini boom thanks to its standard 1/4" thread mount. Likewise, its smartphone holder can also be detached for use with tripods and other stands.

Register your iKlip Grip Pro

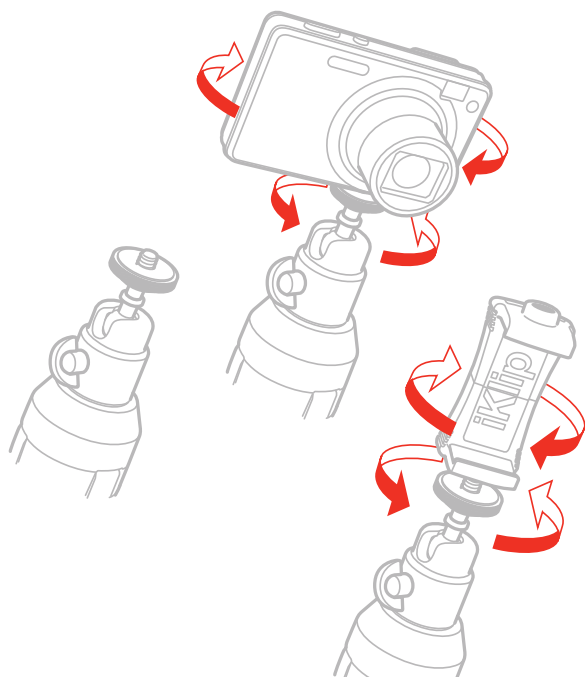

By registering, you can access technical support, activate your warranty and receive free JamPoints™ which will be added to your account. JamPoints™ allow you to obtain discounts on future IK purchases! Registering also keeps you informed of all the latest software updates and IK products.

Register at: www.ikmultimedia.com/registration

Using iKlip Grip Pro as hand-held

1. Mount the Xpand holder on the threaded ball at the top of the pole. Alternatively you can mount any camera with standard 1/4"-20 female thread.

2. Fit your preferred smartphone and orientate it by operating the side key.

Using iKlip Grip Pro as tripod

WARNING: before to try to open iKlip Grip's legs, you NEED to unlock the telescopic pole.

1. Unlock the telescopic pole by turning it counter-clockwise.

2. Extend the pole and open the legs.

3. Place iKlip Grip Pro on a stable surface and place the pole at the height desired. Then lock the pole by rotating it clockwise.

Using iKlip Grip Pro as selfie stick

1. Unlock the telescopic pole by turning it counter-clockwise.

2. Extend the pole full length and lock it by turning clockwise.

Using the Bluetooth shutter

1. Turn on the shutter by switching the ON/OFF button on the side of the controller. The shutter controller will enter into pairing mode and the LED indicator starts flashing quickly at the same time.

2. Activate the Bluetooth setting on your device and it should “look” for new Bluetooth devices.
3. Select the “Shutter” device from the list and you should be ready to start capturing video and photos using your new shutter controller.

4. You can fix the shutter on the body of iKlip Grip Pro thanks to its sledge.

Contains Bluetooth shutter with FCC ID : 2ADMCSF2001

FCC statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC radiation exposure statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

CANADA

Contains/Contient Bluetooth shutter with IC ID: 20638-SFR1002

IC statement/warning

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

To comply with Industry Canada RF radiation exposure limits for general population, the antenna(s) used for this transmitter must be installed such that a minimum separation distance of 20cm is maintained between the radiator (antenna) and all persons at all times and must not be co-located or operating in conjunction with any other antenna or transmitter

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Avertissement IC

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. l'appareil ne doit pas produire de brouillage, et
2. l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Pour satisfaire les limites d'exposition aux radiations RF de l'Industrie Canada, les antennes utilisées pour cet émetteur doivent être installées de façon telle qu'au moins 20cm séparent l'émetteur (antenne) de toute personne, et ne doivent être ni situées ni utilisées en conjonction avec n'importe quelle autre antenne ou émetteur.

iKlip Grip Pro

Gracias por comprar iKlip Grip Pro.

Tu paquete contiene:

- iKlip Grip Pro
- Correa para muñeca
- Soporte de dispositivo
- *Obturador Bluetooth
- Adaptador de doble rosca
- Guía de inicio rápido
- Tarjeta de registro

iKlip Grip Pro es la siguiente generación del bien conocido iKlip Grip de IK. Proporciona un soporte de mano, minitripode, monopie, adaptador de trípode y obturador bluetooth para cualquier teléfono inteligente o phablet, en un paquete convenientemente portátil.

iKlip Grip Pro cuenta con un soporte para teléfono inteligente con corchetes que se expanden para sujetar dispositivos con tamaños de pantalla que van desde 3.5" a 6" de forma segura con o sin estuche.

Diseñado para grabación de video estable y sin esfuerzo, el soporte de iKlip Grip Pro está sostenido por un mango con tres patas plegables que se pueden usar como trípode de mesa o mango de agarre. También hay un botón obturador bluetooth extraíble personalizado, convenientemente integrado en el mango, para tomar fotografías e iniciar/detener videos fácilmente.

Con iKlip Grip Pro, los videógrafos siempre obtendrán un gran ángulo gracias a su montura de bola, que se puede ajustar hasta 90°, y su poste telescópico de aluminio anodizado desmontable, que se puede bloquear en su lugar para brindar hasta 60 cm de altura adicional.

El mango de iKlip Grip Pro también se puede usar como un trípode de cámara o como un soporte de micrófono de mesa o una minicaña de mano gracias a su montura de rosca estándar de 1/4". Asimismo, su soporte para teléfono inteligente también se puede desmontar para usarlo con trípodes y otros soportes.

Registra tu iKlip Grip Pro

Al registrarlo puedes acceder al soporte técnico, activar tu garantía y recibir JamPoints™ gratis que se agregarán a tu cuenta. ¡Los JamPoints™ te permiten obtener descuentos en compras futuras de IK! El registro también te mantiene informado de las actualizaciones de software y productos más recientes de IK.

Regístralo en: www.ikmultimedia.com/registration

Usa iKlip Grip Pro como soporte de mano

1. Monta el soporte Xpand en la bola con rosca en la parte superior del poste. Alternativamente, puedes montar cualquier cámara con rosca hembra estándar de 1/4"-20.

2. Coloca tu teléfono inteligente preferido y oriéntalo operando la llave lateral.

Usa iKlip Grip Pro como trípode

ADVERTENCIA: antes de intentar abrir las patas de iKlip Grip, NECESITAS desbloquear el poste telescópico.

1. Desbloquea el poste telescópico girándolo en sentido antihorario.

2. Extiende el poste y abre las patas.

3. Coloca iKlip Grip Pro sobre una superficie estable y ajusta el poste a la altura deseada. Bloquea el poste girándolo en sentido horario.

Usa iKlip Grip Pro como palo de selfie

1. Desbloquea el poste telescópico girándolo en sentido antihorario.

2. Extiende el poste en toda su longitud y bloquéalo girándolo en sentido horario.

Usa el obturador Bluetooth

1. Enciende el obturador cambiando el botón ON/OFF que está en el lado del controlador. El controlador del obturador entrará en modo de emparejamiento y el indicador LED empezará a encenderse intermitentemente y rápidamente al mismo tiempo.

2. Activa la configuración de Bluetooth en tu dispositivo y este debería “buscar” nuevos dispositivos Bluetooth.
3. Selecciona el dispositivo “Shutter” de la lista y deberías estar listo para empezar a capturar videos y fotos usando tu nuevo controlador de obturador.

4. Puedes fijar el obturador en el cuerpo de iKlip Grip Pro gracias a su riel de soporte.
