

Microphone Antenna

T-522B

Feature:

- * Broadband directional antenna 680-960MHz.
- * Applicable to GSM, CDMA, WCDMA, WLAN, LTE network.
- * With characteristics such as wide frequency bandwidth, low VSWR, moderate gain, etc.

Specification:

Model	T-522B
Frequency range	680~960MHz
Gain	11dB
Input impedance	50Ω
Horizontal wave source width	60°
Vertical wave source width	50°
Front-to-rear ratio	>18
VSWR	<1.5
Mold form	Vertical
Maximum power	50W
Connector	N base
Size	442×205×60mm(L×W×H)
Weight	1.0Kg
