

KOSS KSC75 EAR CLIPS

TITANIUM COATED DIAPHRAGM STREET HEADPHONES

Clip the Koss KSC75 headphones comfortably over your ear and let yourself be amazed by the great sound of these high fidelity clip headphones. The ideal dynamic headphones for music lovers living an active lifestyle. The KSC75 Titanium's soft, foam ear cushions guarantee an open, hear-through sound for when you prefer to stay connected to your surroundings. Pivoting clips provide a better fit than most over-the-ear sports headphones. Featuring a 2 μ m titanium coating on its diaphragms, Koss KSC75s boast increased rigidity, minimized mechanical distortion, and exceedingly accurate sound quality and reproduction. Perfect for travel, the KSC75s deliver outstanding sound at home or on the move.

- Titanium coated high polymer diaphragm for accurate sound reproduction
- Neodymium Iron Boron magnet structures for deep bass performance
- Dynamic element design for extended frequency response
- Clip design fits around the ear to eliminate the headband
- Oxygen free copper voice coils for extended signal clarity
- 60 Ω Response: 15-25KHz 101dB SPL/1mW
