

PREAMP SPECIFICATION

Dear Friends,

We proudly introduce our new boutique line of products, the Taurus Silver Line of bass pedal effects, which shares all Taurus's DNA and is designed to satisfy even the most demanding musicians. Our Silver Line includes four heavy duty stomp boxes labeled Abigar (Multi-Drive), Zebu, (Reverb-Delay), Vechoor (Multi Chorus-Flanger) and Tux (Compressor-Limiter). Individually engineered with the specific objective of giving you unprecedented control over the sound. It has been said that "Passion drives you to fulfill your dreams". Our founder, head of the corporate research and development, sound and electronic engineer and most of all musician, is spreading his passion and dedication on all of us. Box Electronics, makers of Taurus is fulfilling its dreams and wants to give you the tools to fulfill yours. Our passion supported by the latest technology, best electronic components, hand crafted manufacturing and quality control process guarantees superior quality and complete satisfaction. For the past 27 years, our philosophy remains to provide you with the upmost professional service and the best musical gear. Try our Taurus products, you won't be disappointed. We welcome you to our web site which has received a major face lift and has been extended to include more in depth technical product information, links to users, applications, silver line reviews, testimonials and much more.

The **MLO - Boost Black Line** is a preamp/sound module and DI-box designed as a floor pedal effect. The unit can be connected directly to a mixing board on stage, recording studio or home Hi-Fi system, as to boost and modify the original signal of your instrument. Synonymous with all Taurus amplifiers, the Taurus patented MLO system provides exceptional sound creation flexibility and ease. The MLO assures optimal tuning of mid frequencies using only bass and treble potentiometers. This feature will also greatly benefit musicians from logical and effective tone regulation. Moreover MLO- equalizer will keep the volume level unchanged while low frequencies are added to your original sound. You will hear just tone changes, not its volume.

The MLO - Boost Black Line features all Taurus's DNA

Features:

1. INPUT - mono 1/4" (jack)
2. OUTPUT - mono 1/4" (jack)
3. POWER SUPPLY - External 12V/100mA

Internal voltage converter (12V to 24V) for greater dynamic range

Warning ! Only the power supply included with the effect must be used.

4. LED - power indicator
5. GAIN - input sensitivity
6. BASS - bass level
7. TREBLE - treble level
8. VOLUME - volume level
9. LED - power indicator

Warning! The effect is turned off only when the power supply is unplugged.

Thank you for your trust and for choosing Taurus MLO boost

Rubber leg caps and velcro are included in the package to secure your effect to pedal board.
